

DEUTSCHER  
VERBRIEFUNGSSTANDARD

## DEUTSCHER VERBRIEFUNGSSTANDARD and STS

High quality securitisation is a key component of well-functioning financial markets. This is and has been the credo of TSI since its foundation in early 2004.

All those years TSI has provided the market for high-quality securitisations with the quality brand CERTIFIED BY TSI – DEUTSCHER VERBRIEFUNGSSTANDARD. From the very beginning, high transparency, disclosure, detailed requirements for lending and credit processing have been the core of the TSI certificate. And not least the financial crisis of 2008 showed how important these requirements are for the securitisation market. As TSI, we therefore welcome the new European STS regulations.

On 12 December 2017, the EU adopted a new regulatory framework for simple, transparent and standardised securitisations, which will apply from 1 January 2019. The new regulations underline in the best possible way how up-to-date the TSI certification was already in 2004. In essence, almost all the new STS requirements were already included in the DEUTSCHER VERBRIEFUNGSSTANDARD, and for some criteria the TSI certification was and is even more extensive and precise than the new European regulation.

However, the approaching first-time application of the new legal requirements is a good reason to revise the DEUTSCHER VERBRIEFUNGSSTANDARD in order to ensure that all aspects of the new regulations as laid down in the Regulation and the accompanying Level 2 and Level 3 regulations are henceforth also taken into account accordingly in the TSI quality label.

## Declaration of undertaking by the mandator forming part of the TSI certification process

We, the undersigned

Mandator

BMW Bank GmbH

undertake to comply with all details of this declaration of undertaking for the entire term of the securitisation transaction

Transaction

Bavarian Sky S.A., acting in respect of its Comp. German Auto Leases 9

The transaction for which the certificate DEUTSCHER VERBRIEFUNGSSTANDARD is applied for is a securitisation transaction within the meaning of Article 2 of the REGULATION (EU) 2017/2402 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 – hereinafter referred to as “Securitisation Regulation”. If changes occur with regard to the fulfilment of individual criteria, we will inform True Sale International GmbH thereof without undue delay.

The “General Conditions of Certification”, including the annexes, of True Sale International GmbH, as published on the True Sale International GmbH website ([www.tsi-gmbh.de](http://www.tsi-gmbh.de)), shall apply. True Sale International GmbH will not carry out any initial or ongoing verification of the information given in this declaration of undertaking.

On the basis of TSI’s interpretation of the Securitisation Regulation as of 12 December 2017 the STS requirements are incorporated in TSI’s DEUTSCHER VERBRIEFUNGSSTANDARD requirements for EU securitisation transactions with car financing receivables as underlying. The originator confirms with this declaration of undertaking that the transaction complies with all given requirements to its best knowledge. TSI has checked and verified the originator’s statements on the basis of the offering circular and further material provided by the originator, such as the articles of association of the SSPE or a sample of the future investor reporting.

The TSI certification is **not** a third party verification according to article 28 of the Securitisation Regulation. Neither is the originator able to give a final STS notification in accordance to Article 27 of the Securitisation Regulation as far as the Regulatory Technical Standards and Guidelines of EBA and ESMA are not yet finally approved by the EU-Commission. But TSI has considered as much as possible all general requirements (Chapter 1 to 3 of the Regulation) as well as the STS requirements for ABS-transactions contained in Chapter 4 of the Securitisation Regulation and the final EBA guidelines on the STS criteria for non-ABCP securitisation of 12 December 2019.

| 15 | Assurance is given, that the originator applies to exposures to be securitised the same sound and well-defined criteria for credit-granting which they apply to non-securitised exposures. To this end the same clearly established processes for approving and, where relevant, amending, renewing and re-financing credits are applied. The Originator has effective systems in place to apply those criteria and processes in order to ensure that credit-granting is based on a thorough assessment of the obligor's creditworthiness taking appropriate account of factors relevant to verifying the prospect of the obligor to meet his obligations under the leasing agreement. | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input type="checkbox"/> n. a. |

| No   | Quality criterion                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Criterion fulfilled                                                                                      | Reference to the Regulation                                         | Prospectus / reference                                                       | Comments                                                                                                                                                                                                                                                                                                                                                  |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 34 a | Assurance is given that the repayment of the securitisation does not depend predominantly on the sale of assets in the portfolio or its sales value. In this respect, the following conditions are cumulatively met:<br>a) the contractually agreed outstanding principal balance, at contract maturity of the underlying exposures that depend on the sale of the assets securing those underlying exposures to repay the principal balance, corresponds to no more than 50% of the total initial exposure value of all securitisation positions of the securitisation;<br>b) the maturities of the underlying exposures referred to in point (a) are not subject to material concentrations and are sufficiently distributed across the life of the transaction;<br>c) the aggregate exposure value of all the underlying exposures referred to in point (a) to a single obligor does not exceed 2% of the aggregate exposure value of all underlying exposures in the securitisation. | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input type="checkbox"/> n. a. | Article 20 (13.)<br>TSI criterion<br><br>EBA Guidelines,<br>note 48 | Prospectus<br>CREDIT<br>STRUCTURE AND<br>FLOW OF FUNDS,<br>Lease Instalments | The Transaction does not, for the repayment of the securitisation positions, rely in any way on the sale of assets. This is achieved mainly by the fact that the residual value (RV) portion of the Lease Agreements, which bears the potential risk that the value of the underlying vehicle fluctuates, does not form part of the underlying exposures. |
| 34 b | If the conditions mentioned above in criteria 34 a. are not met assurance is given that the residual values in the transaction are guaranteed by a third party or are fully mitigated by a repurchase obligation. In this respect, the seller or the third parties meet both of the following conditions:<br>a) they are not insolvent and<br>b) there is no reason to believe that the entity would not be able to meet its obligations under the guarantee or the repurchase obligation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <input type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input checked="" type="checkbox"/> n. a. | Article 20 (13.)<br><br>EBA Guidelines,<br>note 50                  |                                                                              |                                                                                                                                                                                                                                                                                                                                                           |

| 49                                            | Assurance is given, that the transaction is structured in a way that in an early amortisation event and after an enforcement or an acceleration notice has been delivered no amount will be trapped in the SSPE beyond what is necessary to ensure the operational functioning of the SSPE or the orderly repayment of investors in accordance with the contractual terms of the securitisation (unless exceptional circumstances require that amount is trapped in order to be used, in the best interests of investors, for expenses that will avoid the deterioration in the credit quality of the underlying exposures). All principal receipts from the underlying exposures will be passed to investors via sequential amortisation of the securitisation positions, as determined by the seniority of the securitisation position; repayment of the securitisation positions will not be reversed with regard to their seniority and no provisions will require automatic liquidation of the underlying exposures at market value. | <table><tr><td><input checked="" type="checkbox"/> Yes</td></tr><tr><td><input type="checkbox"/> No</td></tr><tr><td><input type="checkbox"/> n. a.</td></tr></table>                                                                                                                                                                                                                                                              | <input checked="" type="checkbox"/> Yes | <input type="checkbox"/> No | <input type="checkbox"/> n. a. | Article 21 (4.)                     | Prospectus<br>TRANSACTION<br>OVERVIEW,<br>Applicable Priority<br>of Payments and<br>Pre-Enforcement<br>Priority of<br>Payments and<br>Post-Enforcement<br>Priority of<br>Payments |                          |                          |                          |                                     |                                     |                          |                          |                                        |                                                                                                                                                        |                                                                                  |

| 50 | Assurance is given that all key transaction parties (e.g. servicer, account bank, swap provider, etc.) and their tasks, contractual obligations and responsibilities are described in the Prospectus or the final document. If specific requirements are made with regard to the rating of the relevant transaction party, these must be presented in the Prospectus or the final document and the measures to be taken if the rating falls below the defined target value must be indicated. | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input type="checkbox"/> n. a. | TSI criterion and Article 21 [7.] | Prospectus<br>PARTIES TO THE TRANSACTION<br><br>TRANSACTION OVERVIEW     | OUTLINE OF THE OTHER PRINCIPAL TRANSACTION DOCUMENTS and THE MATERIAL TERMS OF THE TRUST AGREEMENT and CREDIT STRUCTURE AND FLOW OF FUNDS, Bank account used for the Transaction and Interest rate hedging<br><br><input type="checkbox"/> continued on page 30 |
| 51 | Assurance is given that the contractual obligations, duties and responsibilities of the servicer, trustee and all other ancillary service providers are clearly specified in the transaction documentation. In the case of an insolvency or default of the servicer or any other counterparty the documentation specifies the rights and procedures regarding the replacement of the servicer.                                                                                                | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input type="checkbox"/> n. a. | Article 21 [7.]                   | Prospectus<br>TRANSACTION OVERVIEW<br><br>OUTLINE OF THE OTHER PRINCIPAL | TRANSACTION DOCUMENTS<br><br><input type="checkbox"/> continued on page 30                                                                                                                                                                                      |
| 52 | Confirmation is given that at least one lead manager or arranger is involved in the transaction and that the lead manager or arranger is also named accordingly in the listing prospectus or the final document.                                                                                                                                                                                                                                                                              | <input checked="" type="checkbox"/> Yes<br><input type="checkbox"/> No<br><input type="checkbox"/> n. a. | TSI criterion                     | Prospectus Cover Sheet                                                   | <input type="checkbox"/> continued on page 30                                                                                                                                                                                                                   |

## General quality criteria

| No | Quality criterion                                                                                                                                                                                                                                                                  | Criterion fulfilled                                                                                      | Reference to the Regulation | Prospectus / reference                | Comments |
