

DEUTSCHER VERBRIEFUNGSSTANDARD and STS

High quality securitisation is a key component of well-functioning financial markets. This is and has been the credo of TSI since its foundation in early 2004.

All those years TSI has provided the market for high-quality securitisations with the quality brand CERTIFIED BY TSI – DEUTSCHER VERBRIEFUNGSSTANDARD. From the very beginning, high transparency, disclosure, detailed requirements for lending and credit processing have been the core of the TSI certificate. And not least the financial crisis of 2008 showed how important these requirements are for the securitisation market. As TSI, we therefore welcome the new European STS regulations.

On 12 December 2017, the EU adopted a new regulatory framework for simple, transparent and standardised securitisations, which will apply from 1 January 2019. The new regulations underline in the best possible way how up-to-date the TSI certification was already in 2004. In essence, almost all the new STS requirements were already included in the DEUTSCHER VERBRIEFUNGSSTANDARD, and for some criteria the TSI certification was and is even more extensive and precise than the new European regulation.

However, the approaching first-time application of the new legal requirements is a good reason to revise the DEUTSCHER VERBRIEFUNGSSTANDARD in order to ensure that all aspects of the new regulations as laid down in the Regulation and the accompanying Level 2 and Level 3 regulations are henceforth also taken into account accordingly in the TSI quality label.

Declaration of undertaking by the mandator forming part of the TSI certification process

We, the undersigned

Mandator

undertake to comply with all details of this declaration of undertaking for the entire term of the securitisation transaction

Transaction

The transaction for which the certificate DEUTSCHER VERBRIEFUNGSSTANDARD is applied for is a securitisation transaction within the meaning of Article 2 of the REGULATION (EU) 2017/2402 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulations (EC) No 1060/2009 and (EU) No 648/2012 – hereinafter referred to as “Securitisation Regulation”. If changes occur with regard to the fulfilment of individual criteria, we will inform True Sale International GmbH thereof without undue delay.

The “General Conditions of Certification”, including the annexes, of True Sale International GmbH, as published on the True Sale International GmbH website (www.tsi-gmbh.de), shall apply. True Sale International GmbH will not carry out any initial or ongoing verification of the information given in this declaration of undertaking.

On the basis of TSI’s interpretation of the Securitisation Regulation as of 12 December 2017 the STS requirements are incorporated in TSI’s DEUTSCHER VERBRIEFUNGSSTANDARD requirements for EU securitisation transactions with car financing receivables as underlying. The originator confirms with this declaration of undertaking that the transaction complies with all given requirements to its best knowledge. TSI has checked and verified the originator’s statements on the basis of the offering circular and further material provided by the originator, such as the articles of association of the SSPE or a sample of the future investor reporting.

The TSI certification is not a third party verification according to article 28 of the Securitisation Regulation. Neither is the originator able to give a final STS notification in accordance to Article 27 of the Securitisation Regulation as far as the Regulatory Technical Standards and Guidelines of EBA and ESMA are not yet finally approved by the EU-Commission. But TSI has considered as much as possible all general requirements (Chapter 1 to 3 of the Regulation) as well as the STS requirements for ABS-transactions contained in Chapter 4 of the Securitisation Regulation and the final EBA guidelines on the STS criteria for non-ABCP securitisation of 12 December 2019.
